ABSTRACT

The tables contained in this document present data concerning the 1973-74 high school graduates of New York State's public and nonpublic schools. The data were secured through the State Education Department's Basic Educational Data System and reflect the status of graduates, as reported by school principals, in the fall of 1974. Table 1 presents trends in the college-going rate of high school graduates from 1965 through 1974. The rows of the table define categories of high school graduates according to type of institution entered and type of high school graduated from. The columns correspond to the years in which graduates entered post secondary education (i.e. fall of 1965 through 1974). The cell entries in the table are percentages. Table 2 presents "Trends in New York State High School Graduates Entering Institutions of Higher Education Within and Outside New York State, 1970 to 1974" for Public High School Graduates, Nonpublic High School Graduates, and Public and Nonpublic High School Graduates. Table 3 presents the "Distribution of 1973-74 Public High School Graduates, New York State." Table 4 presents the "Distribution of 1973-74 Nonpublic High School Graduates, New York State". Table 5 shows the "Distribution of 1974-75 Public and Nonpublic High School Graduates, New York State." (Author/JM)
